

3rd European GeoInformation Symposium & Exposition

26-27 February 2019 - Berlin, Germany

THANKS TO OUR EXHIBITORS!

The Bundeswehr Geoinformation Service creates basics and prerequisites for Bundeswehr routine duty and operations in geoinformation affairs. This allows the BGIS to effectively and efficiently accomplish the mission to identify any operation-relevant environmental influences, assess their impact in terms of space and time, and support users by means of prepared geospatial and environmental information.

<https://www.bwi.de>

BWI GmbH is one of the top 10 IT service companies in Germany. The 100% federally-owned company operates as the IT systems house for the German Armed Forces. In addition to IT services for the Bundeswehr, BWI offers its services as IT service center of the federal government also to other ministries of the federal government and plays an important role in the federal IT consolidation project.

<http://www.compusult.com>
