

Tony Vanchieri:

Tony was one of the first 87 federal employees assigned to the newly created Transportation Security Administration (TSA) in November 2001, where he served as the TSA Director of Technology Integration & Information Technology for the Office of Maritime and Land Security. Tony led complex and large scope projects throughout the Department of Homeland Security including US Coast Guard, Customs and Border Protection, the Science and Technology Directorate, Office of the National Capital Region Coordination, Homeland Security Advanced Research Projects Administration, and the Domestic Nuclear Defense Office. Tony is currently the Executive Vice President & General Manager of Summit Government Solutions Group.
