

MAJ Robert Castillo – USSOUTHCOM –Deputy Program Chief

MAJ Castillo has been serving as the Principal advisor to the J6 and Chief Information Officer for all matters pertaining to C4S programs, architectures and resources. He leads a joint staff of 15 military and contractor employees in planning, programming and developing policies and architectures for the employment of communication and automation programs to include strategic, long-range planning in support of the J6 and Combatant Commander's Vision. He provides C4S support to security assistance organizations in more than 26 countries and is responsible for the development and expansion of multi-national information system architectures to support USSOUTHCOM's Theater Security Cooperation mission. He is the program lead for several multi-million dollar programs, which includes the implementation of Net Top 2 Thin Client Solution.
