

**Director, Cyber Security Practice, EDS U.S. Public Sector**

Samuel Chun is the Director of the Cyber Security Practice for EDS U.S. Public Sector. He is responsible for the strategy, portfolio development and industry messaging of all cyber security solutions for EDS U.S. Public Sector clients.

Chun joined EDS, an HP company, in 2008 from the joint program office of the Secure Information Sharing Architecture Alliance (SISA), a security consortium led by Microsoft, Cisco, and EMC for the global government market. Previously he was the director of information assurance for the Enterprise Technical Services Division of TechTeam Government Solutions where he served for 10 years in a variety of internal and external security roles, including leading the company's compliance to the Sarbanes-Oxley Act of 2002. He was also an infrastructure consultant for SRA International.

Chun holds a variety of industry certifications, including being a Certified Information Systems Security Professional (CISSP). He is an industry authority on information security and a prolific writer having authored numerous chapters in the Information Security Management Handbook series, of which he serves as a regular contributor. He has also had articles published in works such as the *Homeland Defense Journal*, *IT Security Magazine* and *Government Security News*.

Chun is a graduate of the Johns Hopkins University in Baltimore, Md., where he received both his bachelor's and master's degrees in psychology.
