MILITARY ELECTRONICS SEMINAR
presented by ELECTRONICS VALLEY

Electronics Valley is glad to present to you the "4th MILITARY ELECTRONICS SEMINAR" which will be held in Ankara, Turkey on the 16 - 17th of November, 2015. This two-day event will take place at the Cultural and Convention Center of Middle East Technical University in Ankara, Turkey.

Electronics Valley has organized 12 highly successful events for the benefit of defense and aerospace industries since 2007. The Electronics Valley networking events became very popular and significant, creating synergy among government, industry and academia.

Electronics Valley's "4th MILITARY ELECTRONICS SEMINAR" will be the most comprehensive and exciting one to date. The seminar will bring together key players from the public and private sectors, the academia, and various think tanks. About 1,000 visitors are expected to attend this upcoming event. Top industry companies will display their leading technologies, products and services to the industry professionals. The hands-on workshops will be conducted on both days, along with general and technical presentations covering important industry topics. The participants will share critical business information on the rapidly expanding industries and have an opportunity to meet and exchange ideas with leading industry experts. New Product Introductions Session, 1- and 2-day long Short Courses, and B2B Meetings will also be featured with the support of Electronics Valley partners and seminar sponsors. The participating companies will be able to accomplish lead generation, networking with potential clients, branding, and launching new products. Special discounts on sponsorship packages apply for R&D companies, AFCEA Corporate Members and SaSaD Members.

About Electronics Valley
