

AFCEA EPIC Profile

Name: Michael Campanelli

Title: Sr. Systems Engineer

Profile: - Mike Campanelli

Mr. Campanelli is a Senior Systems Engineer with RadiantBlue Technologies, currently supporting the Intelligence Community (IC) in the design and development of forward leaning systems. Mr. Campanelli has spent his career supporting the acquisition, technical development, and operations of advanced systems for the IC and DoD. His professional project experience has centered on systems engineering, software requirements definition and design, software test and integration, and life cycle development activities for space operations on ground based command and control systems. Mike's work has taken him from behind a desk to in the field and back again; and his work reflects his varied experiences.

Mr. Campanelli earned a B.S. in Aerospace Engineering and a B.S. in Mechanical Engineering from West Virginia University, a M.S. in Systems Engineering from George Washington University and is currently completing post-graduate study in Geospatial Intelligence at Penn State University. He currently serves as a member of the Board of Directors for the United States Geospatial Intelligence Foundation and co-chairs the Foundation's highly successful Young Professionals Group. Passionate about technology and GEOINT, Mike frequently tweets under the handle @MCampy28.

Technical Focus Areas:

1. System Engineering & Integration
2. Program / Project Management
3. Intelligence Analysis
4. Information System Strategy (Future Technologies, Strategic System Development)
