

## Coronavirus Disease 2019 (COVID-19) Update

*February 25, 2020*

The health and safety of our attendees is our top priority. The workshop is confirmed and currently the Coronavirus epidemic does not have an effect on our preparations. Anti-bacterial gel will be available onsite for delegates upon request.

AFCEA Europe strongly encourages attendees to follow the guidance of the [World Health Organization](#) (WHO) and the [European Centre for Disease Prevention and Control](#) (ECDC) for everyday preventative actions to help prevent the spread of respiratory viruses.

- Wash hands often with soap and water for at least 20 seconds, especially after going to the bathroom; before eating; and after blowing your nose, coughing, or sneezing.
- If soap and water are not readily available, use an alcohol-based hand sanitizer with at least 60% alcohol. Always wash hands with soap and water if hands are visibly dirty.
- Avoid touching eyes, nose, and mouth with unwashed hands.
- Avoid close contact with people who are sick.
- Stay home when sick.
- Cover a cough or sneeze with a tissue, then throw the tissue in the trash.
- Clean and disinfect frequently touched objects and surfaces using a regular household cleaning spray or wipe.

Due to the historic and current profile of our participants' origin, we do not anticipate any impact at this time. We will update this website page as needed.
