

AHMED ALI
STRATEGIC BUSINESS EXECUTIVE, GOOGLE CLOUD

Ahmed Ali is a Strategic Business Executive for Google Cloud. In this role he is responsible for driving strategic programs with a primary focus on US national security.

Ahmed leads a team positioning the power of Google to support the national security mission of the United States. He has worked

to help the US Federal government take advantage of technology solutions for over 20 years.

Prior to Google, Ahmed spent 10 years at VMware helping various clients take advantage of the latest VMware technology for mission operations. Ahmed spent the formative years of his career working as an engineer for the Department of Defense mostly in the computer security field.

Ahmed is a graduate of the University of South Carolina Honors College with a BS in Chemical Engineering. He published a senior thesis titled "Liquid Extraction of Hydrogen Isotopes" in conjunction with the Dept of Energy Savannah River Site for the purposes of trying novel techniques to clean contaminated groundwater at one of the country's former nuclear weapons production facilities.

On a personal note, Ahmed has been married for 11 years to his lovely wife Debbie and is the proud father of four amazing children; Adam, Zach, Gabriel, and Hannah.
