

# **Arjuna (AJ) Pathmanathan**

**Director**

**National Cyber Range Complex, TRMC**

Mr. Arjuna (AJ) Pathmanathan is currently serving as Director of the National Cyber Range Complex within the DOD's Test Resource Management Center (TRMC). In this role he oversees all aspects of the NCRC's integrated enterprise solution in support of the DOD's cybersecurity Test and Training requirements which includes multiple cyber ranges, distributed infrastructure and a multidisciplinary team to aid users in the successful planning and execution of their activities. Prior to that, he served as Joint Mission Environment Test Capability (JMETC) Program Manager for TRMC where he was responsible for distributed network infrastructures that connected well over 140 labs and facilities in support of the DOD's interoperability and cybersecurity Test and Training communities. While at TRMC, Mr. Pathmanathan has also served as the JMETC Deputy PM, Technical Director for the National Cyber Range and as the Executing Agent for the T&E/S&T Program's Cyber Test Technology Area. Prior to coming to the TRMC, he previously served at U.S. Army's Redstone Test Center (RTC) as both the Network Architect and the Director of the High Performance Computing (HPC) Center. Mr. Pathmanathan holds a Bachelor of Science degree in Electrical Engineering from Auburn University.
