

Lori Scherer has 30+ years of experience in setting portfolio strategies, developing approaches and engagement activities to develop trusted relationships across the IC and industry, and in-depth knowledge of and experience with mission critical technical challenges across multiple entities. Throughout her career she has supported various organizations in the IC to include identifying large scale efficiencies and strategic integration to drive new collection opportunities, advancing cyber operations, and introducing emerging technology solutions into mission. Lori has a BS in Chemical Engineering from Rutgers University and an MS in Systems Engineering from Johns Hopkins University.
