ARMED FORCES COMMUNICATIONS & ELECTRONICS ASSOCIATION

Adopt-A-School Program

Purpose:

- To provide support to a local school Grades K-12, on a consistent basis that makes a difference in the management, operation and performance of the school.
- Support can be defined as grants, volunteers and sponsorship that should be applied to improve the student's performance at Fort Belvoir Elementary School.

Characteristics of Fort Belvoir Elementary School: Fort Belvoir School is one of the largest elementary schools in FCPS and the Washington Metropolitan area serving nearly 1200 students in kindergarten through grade six.

Adopt-A-School Program

The media center includes three instructional reading areas; a large children's library collection; a TV studio; and on-line catalog, circulation, and multi-media stations.

Designated as a Model Tech School, the facility is fully networked for Internet access and equipped with the latest technologies. There are three stationary computer labs, three mobile wireless computer labs and several computers in each classroom.

BOTTOM LINE: AFCEA Belvoir annually we do our best to support the needs of the administration thru consistent conversations and meetings either lead by YAFCEANS, Executive Vice-President, Education Chair or President. AFCEA BELVOIR provide funding and support to make a difference in the lives of the Children, Teachers and Administration.
