SIGNAL MAGAZINE

JANUARY

Cyber Education and Training, CERTS

Building a phalanx of skilled cyber defenders and warriors takes a long-term commitment to training and retention.

Space: 12/01 | Materials: 12/07

FEBRUARY

Navy/Marine Corps Technologies

The two services tasked with securing more than 2/3 of the Earth's surface are undergoing major modernization.

Space: 01/04 | Materials: 01/11

MARCH

Artificial Intelligence/ Machine Learning

AI and ML are the evolving building blocks of next-generation information technologies.

Space: 02/01 | Materials: 02/08

APRIL

DISA/IndoPac

Two topics: The agency at the heart of military communications & information systems (+ DISA contracting guide); Threats troubling the Indo-Pacific region.

Space: 03/01 | Materials: 03/08

MAY

The Internet of Behaviors

A rapidly growing discipline involves modeling human behavior based on data collected by the Internet of Things (IoT).

Space: 04/05 | Materials: 04/12

JUNE

Mobile/Wireless Technologies

While government, industry and the military are hard at work exploiting 5G, researchers and engineers are developing 6G.

Space: 05/03 | Materials: 05/10

JULY

Cloud Technologies

Everything is moving to the cloud, and this has opened the door to a host of new capabilities and enabling technologies for them.

Space: 06/03 | Materials: 06/09

AUGUST

Army Technologies

After focusing on fighting terrorism for two decades, the Army is restructuring to return to its original mission of ground superiority.

Space: 07/01 | Materials: 07/07

SEPTEMBER

Intelligence Air Force Technologies

Two separate but vital topics addressing the dynamic picture of intel collection & processing and the USAF's efforts to maintain air supremacy using leap-ahead technologies.

Space: 07/29 | Materials: 08/04

OCTOBER

Space

The new U.S. Space Force must address defending space assets against enemy threats AND improving its support to warfighters.

Space: 08/25 | Materials: 09/01

NOVEMBER

Indo-Pacific Theater

All eyes are on China as it eyes the Indo-Pacific region as part of a multi-decade plan for global domination.

Space: 09/29 | Materials: 10/06

DECEMBER

Zero-Trust Architecture

The next trend in cybersecurity may be zero-trust architecture, but extending it throughout the virtual world opens up a new set of challenges.

Space: 10/27 | Materials:11/03
