

Scott Buchholz

Global Quantum Lead, Deloitte Consulting LLP

Scott Buchholz is the Global Lead for Quantum Computing at Deloitte. In that role, he is responsible for coordinating efforts to explore the applications of quantum computers and quantum technologies; coordinate with vendor partner organizations; demystifying the topic of quantum computers to business and technology executives; and overseeing Deloitte's overall strategy and investments in the quantum space.

A strategic thinker and visionary, he helps leaders and organizations transform the way they operate through technology. With three decades of experience in enterprise technology innovation and implementation, he brings deep experience from software development to technical architecture to modernization across of a wide range of legacy and emerging technologies. His previous roles have included leading emerging technology research and Deloitte's annual Tech Trends report, Deloitte's flagship research which identifies global trends that are likely to disrupt enterprises in the next 18 to 24 months.
