

Esina Alic is a senior aerospace executive who worked for Boeing and launched its Insitu drone program. She is a VC with Cerberus Capital and reports to Assistant Secretary of Defense Steve Feinberg, through his Tracker Capital family office fund. Ms. Alic is the CEO and executive chair of RapidFlight, a 3D drone company. Previously, she served as CEO of Insitu, leading its growth from a startup to over \$750 million in sales. She has also held executive roles in strategy and business development at Boeing's Autonomy Division and Global Defense Services.

RAPIDFLIGHT

RapidFlight is a design, technology, and manufacturing company based in Manassas, Virginia, specializing in the production of customized, low-cost, mission-ready unmanned systems. Through its advanced AgileAviation™ digital design and manufacturing processes, RapidFlight delivers

scalable, high-quality solutions both centrally and at the tactical edge. Backed by a team of industry professionals, the company is redefining aircraft customization and mass manufacturing to meet the evolving demands of national security. For more details, visit www.rapidflight.aero
