

Kyle Bond, Co-Founder and Co-CEO of Wander Corporation, brings extensive experience to the development of the ARK mobile app, designed to support military families during relocations. A U.S. Marine Corps veteran, he served 12 years in the Marine Special Operations Command, managing complex operations across the globe. With eight years as a licensed real estate agent and investor, he has navigated the housing market's challenges, informing Wander's mission to streamline military moves. He holds a B.S. in Strategic Studies and Defense Analysis from Norwich University, grounding his approach in strategic and analytical expertise. Kyle has driven early traction, securing partnerships with organizations like The American Legion and onboarding hundreds of initial users. His focus remains on scaling Wander's impact for the military community while delivering value to stakeholders.

Wander Corporation, a veteran-owned SaaS startup founded in 2022 in Alexandria, VA, is transforming support for military families through its ARK mobile app. Designed for the 21.3 million-strong military community—active-duty, reservists, veterans, and spouses—the platform streamlines Permanent Change of Station (PCS) relocations with AI-driven tools, connecting users to trusted resources. Its patent-pending "Plan-Connect-Move" process delivers personalized workflows, fosters community engagement, and provides access to mental health and reintegration support, all free for users via a B2C model funded by vendor fees. With a \$4 billion military relocation market opportunity, Wander has already connected with hundreds of early users, demonstrating strong initial traction. Led by experienced founders Kyle Bond and Ernie Scott, Wander blends mission-driven impact with scalable growth potential.
